

# Impact on homes and businesses in the Park

Homes and businesses in the Park Purpose 2, Duty, SQ 2,6,7

Effects on homes and businesses at the south end of Church Lane have already been mentioned above:

- Sompting Peverel,
- Church Farm House,
- Church Farm converted barns (5 dwellings),
- St Mary's Sompting Church itself,
- Sompting Abbots school.

On Lambleys Lane I have already mentioned the small business producing Sompting Estate honey.

In addition homes at Hill Croft and 1-5 Lambleys Cottages would be severed from Upton Farm downland; as would the grain store at Middle Yard Barn.

Impact on the heritage restoration business of Nutshell Construction in Middle Yard Barn's threshing barn would be limited however the setting of this last surviving threshing barn on Sompting Estate would be affected.

There would be a major impact on the viability of the Estate's business plans described above owing to the severance of the field south of Love Lane (FP2074), and of Love Lane itself, from the Estate's downland.
